Budget cycles

Aware of the substantial workload for the General Assembly, the Advisory Committee on Administrative and Budgetary Questions and the Secretariat that has resulted from the current procedures for reviewing peace-keeping budgets,

5. Requests the Secretary-General to make every effort to introduce the procedures described in paragraphs 3 and 4 above as soon as possible and no later than 1 July 1996;

6. Urges the Secretary-General to submit, in the context of the consideration of peace-keeping budget estimates, the related performance report for each peace-keeping operation for the previous financial period, together with such supplementary, up-to-date financial performance data for the current period as are available, and requests him to ensure, to the extent possible, that reports are based on actual expenditure rather than projected data;

7. Decides that the assessments on Member States of appropriations approved by the General Assembly for peace-keeping operations are subject to the approval of mandates by the Security Council;

II

Contingent-owned equipment

Recognizing the problems of the current system pertaining to the determination of the value of contingent-owned equipment and the consequent delay in reimbursement to States providing troops and equipment,

2. Authorizes the Secretary-General to proceed with the project outlined in the annex to the present resolution, which is aimed at setting comprehensive standards for each category of equipment, as well as establishing rates of reimbursement, on the understanding that Member States, in particular troop-contributing countries, will be invited by the Secretary-General to participate in the process, and that proposals for establishing new rates of reimbursement will be submitted to the General Assembly for approval;

3. Invites Member States to contribute voluntarily to participation in the above-mentioned process, and requests the Secretary-General to make every effort to meet any expenditure required from within existing budgetary resources;

III

Taking note of the proposals of the Secretary-General contained in paragraphs 70 and 71 of his report 4/ on revising the current arrangements for compensation for death and disability, and the related comments of the Advisory Committee on Administrative and Budgetary Questions, 5/

Expressing deep concern at the delay in the settlement of claims in respect of death and disability,

Noting with concern that the report of the Secretary-General 4/ did not provide the Advisory Committee with sufficient information to allow it to make informed recommendations in this respect,

Taking note of the views expressed by Member States,

1. Decides that underlying any system of compensation for death and disability should be the need for:

(a) Equal treatment of Member States;

IV

Financial authority

Reaffirming the necessity to provide peace-keeping operations with adequate financial resources, especially in their start-up and expanded phases, to enable the timely, full and effective implementation of their mandates in accordance with the relevant resolutions of the Security Council,

Mindful that the expenditure incurred for start-up costs or expanded activities of peace-keeping operations in recent years has, on occasion, exceeded the current levels of commitment authority granted to the Secretary-General and to the Advisory Committee on Administrative and Budgetary Questions,

1. Decides that, if a decision of the Security Council relating to the start-up phase or expansion phase of peace-keeping operations results in the need for expenditure, the Secretary-General is authorized, with the prior concurrence of the Advisory Committee on Administrative and Budgetary Questions and subject to the Financial Regulations of the United Nations and the provisions in paragraph 2 below, to enter into commitments not to exceed 50 million United States dollars per decision of the Security Council; the cumulative total of outstanding commitment authority, in respect of the start-up or expansion phase of peace-keeping operations, not to exceed 150 million dollars at any one time; however, appropriation by the General Assembly of any outstanding commitments shall automatically restore the balance of the limit of 150 million dollars to the extent of the amount appropriated;

2. Decides also that, if a decision of the Security Council results in the need for the Secretary-General to enter into commitments for the start-up or expansion phase of peace-keeping operations in an amount exceeding 50 million dollars per decision of the Security Council, or exceeding the total of the 150 million dollars referred to above, the matter shall be brought to the General Assembly, as soon as possible, for a decision on commitment authority and assessment;

3. Decides further that the question of assessment of an appropriate amount of the costs relating to the start-up and expansion phases of peace-keeping operations shall be considered by the General Assembly at its fiftieth session in the light of the experience gained from the implementation of the present resolution;

4. 6/ A/48/945 and Corr.1, paras. 105 and 106.

7/ A/49/664, para. 114.

ANNEX

Project plan and time-line for reform of methodology and procedures for determining reimbursements to troop-contributing countries for contingent-owned equipment

Standardization project plan

In order to simplify the process of reimbursement for contingent-owned equipment, and thereby reduce the lead-time associated with the payment of claims, the following project intends to standardize the equipment for which reimbursement will be authorized and to identify appropriate rates of reimbursement for such equipment. This effort will be undertaken in five phases:

(a) Phase I (1 January-14 March 1995). The Secretariat will prepare draft guidelines on the types of items to be included as standards for contingent-owned equipment, such as systems (aircraft, vehicles, etc.); major repairable equipment (generators, communications equipment, etc.); and other equipment and consumables (tentage, mess gear, paper, etc.) for which reimbursement shall be authorized when deployed in connection with a battalion of troops or specialized companies such as medical, signals, aviation support, logistics, communications, etc. Pursuant to the guidelines provided, Member States will provide comments and recommendations which will be consolidated and presented to the phase II working group. Member States will be asked to provide their comments and recommendations and notify the United Nations of their intent to participate in the phase II working group no later than 10 February 1995;

(b) Phase II (15 March-14 May 1995). A review of the comments and recommendations of Member States will be conducted by the Secretariat in order to provide a consolidated working paper to the representatives of Member States participating in the phase II working group. Consultations with and among representatives of Member States will form the basis for the development of a single comprehensive document identifying those standard requirements for which reimbursement will be authorized;

(c) Phase III (17 May-15 June 1995). A fixed scale will be developed identifying annual reimbursement rates for each of the systems (with appropriate adjustment factors being applied according to the source of maintenance support provided, for example, a wet lease/dry lease concept), authorized as a result of the phase II working group consolidation by selected financial analysts of participating Member States. This phase will also result in the development of a single flat rate of reimbursement for all other equipment and consumables;

(d) Phase IV. This phase will involve implementation, at Headquarters and in field missions, of this revised reimbursement procedure, including specifically the distribution of a note verbale by 15 July 1995 initiating revised reimbursement procedures for contingent-owned equipment, implementation of revised budgeting practices incorporating new reimbursement

rates for contingent-owned equipment in budgets prepared after 1 August 1995 and development of automated systems to process claims for reimbursement;

(e) Phase V. This phase will involve a periodic review and update of the phase II and phase III standards to be completed on a triennial basis, with the first review scheduled for March 1998.
